per year . . . 150.00

Philippines:

Journal of the Philippine
Constitutional Convention
of 1934-35 . . . 50.00

The surest—and most economical—solution to the storage and use of burgeoning depository material is convenient microfilm. Currently available University Microfilms, plus the orderly addition of older material, will more than repay their cost through the release of valuable stack space. Plan now to make University Microfilms a part of your depository management program.

the New Trend

for your library planning

Your library planning becomes easier, more certain when you bring together the needs of the librarian; the skills of the architect; the experience of a Library Bureau specialist. Here is the new "trend" in library planning... the "trend" that is providing America with its finest libraries. And, constantly keeping pace with this trend is Library Bureau's TREND furniture... distinctively modern, yet timeless in its simplicity, beauty and durability.

TREND Color Line Square-Round Table and the new Cherner Chair.

TREND Steel Carrell Study Table with fluorescent reflector lights.

TREND Closed Base Card Catalog Cabinet and reference table.

642 / books in 36 inches!

Follow the rows of books back to the Hamilton Compo stacks along the wall. All these books were held by the two empty stacks in this library's circulating book section. These books—642 of them—require only 36 inches of wall space. Compo stacks actually *double* the capacity of your present space—permit a more open and efficient book area.

Unique drawer-type design lets you place books on three sides of each Compo sliding shelf. Yet every book is easily accessible.

If you're interested in solving a *more-books-than-space* problem, write for complete Compo stack information. No obligation, of course.

New 1955 Edition

American Chemical Society Directory of Graduate Research

Faculties, Publications,
and Doctoral Theses in
Departments of Chemis-
try and Chemical Engin-
eering at United States
Universities

INCLUDES:

- All institutions which offer Ph.D. in chemistry or chemical engineering
- Instructional staff of each institution
- Research undertaken at each institution for past two years
- Alphabetical index of over 2,000 individual faculty members and their affiliation as well as alphabetical index of 151 schools

The only U. S. Directory of its kind, the ACS Directory of Graduate Research (2nd edition) prepared by the ACS Committee on Professional Training now includes all schools and departments (with the exception of data from one department received too late for inclusion) concerned primarily with chemistry or chemical engineering, known to offer the Ph.D. degree.

The Directory is an excellent indication not only of research of the last two years at these institutions but also of research done prior to that time. Each faculty member reports publications for 1954-55; where these have not totalled 10 papers, important articles prior to 1954 are reported. This volume fully describes the breadth of research interest of each member of the instructional staff.

Because of new indexing system, access to information is straight-forward and easy—the work of a moment to find the listing you need. Invaluable to anyone interested in academic or industrial scientific research and to those responsible for counseling students about graduate research.

Paper bound.....446 pages.....\$2.50

Methods	JENS NYHOLM
News	WALTER W. WRIGHT
Personnel	LAWRENCE S. THOMPSON
Resources	ROBERT B. DOWNS
Assistants to the Editor	C. DONALD COOK; JOHN RATHER

COLLEGE AND RESEARCH LIBRARIES is the official organ of the Association of College and Reference Libraries, a division of the American Library Association. It includes general articles, official reports, addresses, reviews of selected books, and news from the field of wide professional interest. It is indexed in *Library Literature*.

Manuscripts of articles and addresses and copies of books submitted for review should be addressed to the Office of the Editor, School of Library Service, Columbia University, New York City 27. Contributors should examine copies of past issues for style, and should submit articles carefully typed, double-spaced with wide margins. Requests for reprints should be addressed to ACRL, American Library Association, 50 E. Huron St., Chicago 11, at the time the notification is received of the issue in which the article is scheduled to appear. Advertising should also be arranged with the Chicago Office. The scope of the journal does not permit inclusion of personal communications or exhaustive coverage by reviews of the literature of librarianship.

Editors: Material in COLLEGE AND RESEARCH LIBRARIES is not copyrighted. Permission to reprint should be obtained from the author and editor. No comment or pronouncement can be cited as official endorsement of the Association of College and Reference Libraries or of the ALA. The assumption of editorial responsibility is not to be construed necessarily as endorsement of opinions expressed by writers.

Subscription price: to members of the Association of College and Reference Libraries paying ALA dues of \$6.00 or more, \$2.00 per year, included in the membership dues assigned by ALA to ACRL; to members paying less than \$6.00 and to nonmembers, \$5.00 a year. Single copies \$1.25; orders of five or more at \$1.00 each.

Checks for subscriptions or ALA membership should be made out to the American Library Association. Correspondence about subscriptions and notification of change of address (three weeks notice requested) should be sent to the American Library Association, 50 East Huron Street, Chicago 11, Illinois.

Members of the American Library Association may become members of ACRL by indicating this as the division of their choice when paying ALA dues without the payment of additional dues. ALA members wishing to belong to more than one division must pay to the ALA an additional twenty per cent of their ALA dues (not over \$2.00) for each additional division.

COLLEGE AND RESEARCH LIBRARIES is published bimonthly—January, March, May, July, September and November—by the American Library Association at 1201-05 Bluff Street, Fulton, Missouri. Application pending for transfer of second-class entry to the post office at Fulton, Missouri. Accepted for mailing at the special rate of postage provided for in the Act of February 28, 1925, embodied in paragraph (d) (1), section 34.40, P. L. & R.
